

# LIRIMAS

Littering **I**ntegrated **R**eduction and Remediation  
Innovative **M**anagement in the **A**drion **S**pace

Dott.ssa **Silvia Moroni**  
Regione Marche

# WHY LIRIMAS?

- Littering is a landscape and environmental issue for the ADRION SPACE
- Marine littering has been addressed, not so far coastal littering (that is obviously related to the former)
- Capacity building, IMS to be inserted in the Coastal Management Plans and Citizens and CSOs engagement are key drivers for a common solution

# EXPECTED OUTPUTS

- Integrated management system
- Risk and restoration maps generated by social mapping
- Training and educational materials
- Common Regulatory Framework
- Marketplace for littering re-use and circular economy solutions
