

# Who we are

**A consortium of applied Research think tanks that has been working for Region Emilia Romagna, Region Lombardy and is currently collaborating with a few North Europe Regional Development Agencies**

- To improve **access to regional research infrastructures**
- To map **R&D cross-border networks**
- To set up a **shared R&D access business model**
- To set up a **shared vocational training format in R&D management**

# Project idea

- **“SHARING AND ACCESSING R&D FACILITIES FOR ADRION SMES’ DISTRIBUTED MANUFACTURING”**
- Design a **permanent network of shared regional R&D infrastructures** geared to their greater openness (***accessibility***) to third parties (***Manufacturing SMEs***) and their coordination (***sharing***) on the basis of equipment, expertise and services provided (***business model***)
- Develop **tools for knowledge management support** to the processes of sharing and inter-regional and cross-border access to the R&D infrastructures
- Design and implementation of **voucher scheme** and other services for the access to **ADRION research infrastructure** by SMEs

# **Our ideal partners**

- **Innovation and tech transfers centers**
- **Business associations**
- **Universities**
- **SMEs consortia and clusters**
