

1ST ADRION CAPITALISATION EVENT

11th December 2019, Rome

Concept of the Event

The first ADRION Capitalisation event is organised in the framework of the ADRION Capitalisation process aimed to lay the groundwork for an increased promotion of ADRION funded projects and for the transferability and re-use of projects' outputs and results.

The first ADRION Capitalisation event will be an opportunity to gather representatives of the projects funded under the 1st Call and to start building synergies among them.

The Programme will set-up thematic clusters with the aim to group funded projects by thematic areas. The clusters will provide with some critical mass in key fields for the Programme with the aim to facilitate exchanges by linking actors with complementary thematic specialisation and ease the re-use of results.

Event's Objectives

- Start building synergies among projects
- Ease networking among project representatives
- Launch the ADRION thematic Clusters
- Start identifying cluster's objectives and aims

Audience

Project representatives of the ADRION 1st Call for Proposals, ADRION NCPs and Monitoring Committee members, EUSAIR representatives.

Methodology

The event lasts one full day. Sessions are interactive and foresee a high level of engagement by the participants. Discussion is stimulated through group work.

Outcome

Participants will start interacting through structured thematic cluster set up by the Programme. At the end of the event, each cluster will have identified potential synergies and activities to be developed within the cluster.
